maturity of the Canada Reduced Loan of 1885, due January 1, 1910, and of the 1875 portion of the 1875-8 guaranteed loan, due October 1, 1910, bonds of the above loan to the extent of £117,500 and £23,400, respectively, which were held as a portion of the Sinking Funds of such loans, were cancelled and the amount of the 4 per cent loan then outstanding was reduced by such amounts. Bonds to the amount of £5,000 were converted into 1938 stock under the terms of the prospectus.

The statement showing the number and total salaries of officials coming under the Superannuation Acts and the Retirement Act has been continued to March 31, 1913.

The Ottawa branch of the Royal Mint is not under the control of the Department of Finance and hitherto no definite reference to its operations has been made in the report of the department. The relation, however, between the two is so intimate that, for the purposes of general information and for putting on record interesting data respecting the coinage of Canada, it is thought well to include herein a somewhat extended reference to the Mint and its operations.

Authority for the establishment of the Ottawa branch of the Royal Mint was granted by Parliament in the year 1901 under the provisions of 1 Edward VII, Chapter 4, "The Ottawa Mint Act". The work of construction was commenced in June, 1905, and was completed in 1908. The Royal Proclamation authorizing the opening of the Mint was issued in November, 1907, and published in the *Canada Gazette* of December 14 of that year. The formal opening took place January 2, 1908, and on that day the first coin was struck. The active work of coining silver, however, did not begin until the 19th of the following month.

Since the opening of the Mint proper in 1908 a refinery has been added, and the work of refining gold commenced in January, 1911.

The operation of the Mint is under the control of the Royal Mint, London. The Deputy Master and all officials are appointed by the British Government and the operations generally are governed by regulations issued by the Royal Mint, London.

The Ottawa Mint is not authorized to coin silver and bronze beyond the amount authorized by the Governor in Council.

The total cost of building and equipment to March 31, 1913, was \$617,280.87, in which is included the cost of refinery, \$83,898.78.

Under the provisions of the Ottawa Mint, Act 1901, an annuity of \$75,000 was granted for the purpose of defraying the salaries, contingencies, retiring and other allowances and expenses connected with the maintenance of the Mint. In 1910 it was necessary to supplement the annuity, and a special appropriation of \$25,000 was made by Parliament. This supplementary amount has been granted in each subsequent year. At the last session of Parliament the amount of the annuity to cover the expenses in connection with the Mint was increased to \$110,000. Since its establishment the expenditure for salaries, wages, etc., has been as follows:—

1908	\$ 71,997 32
1909	69,987 80
1910	83,697 12
1911	92,859 33
1912	94,894 32
1913 3 months	24,274 22
	—————\$437,810 11

The amount of the annuity, viz: \$110,000, is paid to the mint authorities in quarterly instalments. At the end of the Mint fiscal year, December 31, any unexpended portion of the annuity is refunded to this Department.

Since the inauguration of the Mint, that is from January 2, 1908, to the 31st March, 1913, silver and bronze coin have been struck to the amount of as follows:—

The proximity of the Mint has enabled the department to provide expeditiously for the large quantities of silver and bronze coinage required during the past few years. As coin could be supplied so quickly from Ottawa it was no longer necessary to retain large reserve supplies at the offices of the various Assistant Receivers General. A further advantage was the facility offered for the recoinage of smooth and mutilated silver and bronze. During the period from 1908 to 31st March, 1913, silver coins to the face value of \$789,194.34 were recoiné at a loss of \$16,191.71. Copper cents to the face value of \$227.48 at a loss of \$26.14 were also recoiné.

On the 31st March, 1913, the amount of Canadian gold coined by the Mint to that date was \$1,899,739. Of this amount, \$810,970 is held by the Receiver General as part of the gold reserve and \$68,020 in the hands of the Mint, leaving in circulation \$920,749.

It may be of interest to have on record a table of coinages executed by the Royal Mint on behalf of Canada. Such a table will be found hereafter giving the coinages for Canada during the years from 1878 to 1907 executed at the Royal Mint, London, and the Mint, Birmingham, also coinages struck for New Brunswick and Nova Scotia

SESSIONAL PAPER No. 2

prior to Confederation and for Prince Edward Island prior to 1873, when that province entered the Union. The table further contains the coinages from 1908 to 1913, inclusive, at the Ottawa Branch Mint.

An interesting feature in connection with the department is the gold reserve.

The amount of Dominion notes in circulation on the 31st March was \$112,101,885.65. Against this the department is required to hold a reserve in gold as follows:—

Twenty-five per cent on \$ 30,000,000.....	\$ 7,500,000 00 and
dollar for dollar in gold for the notes in excess of	
\$30,000,000 or.....	82,101,885 65

The total gold requirement against the circulation of
Dominion notes was therefore..... \$9,601,885 65

The department is further required to hold 10 per cent of the amount of Savings Bank deposits which, on the 31st March, 1913, amounted to \$57,140,483.39. Ten per cent of this is \$5,714,048.33 which, added to the reserve required to be held for Dominion notes, \$89,601,885.65, makes a total requirement on account of gold reserve of \$95,315,933.98.

The amount of gold actually held on the 31st March, 1913, was \$98,507,112.81. The gold reserve so held was on that date made up as follows:—

British sovereigns.....	\$ 4,264,744 82
Canadian \$10 and \$5.....	810,970 00
United States \$20, \$10 and \$5.....	93,208,464 00
Bullion.....	222,933 99
	<hr/>
	\$ 98,507,112 81

This reserve was duly inspected and verified during the year.

An arrangement has been in existence since 1909-10 under which the department, in co-operation with the chartered banks, has undertaken the work of the removal of foreign coin from circulation. For this purpose the department pays the amount of the express charges on the shipment of such coin out of the country and also $\frac{3}{8}$ of one per cent commission to the banks carrying on the work to compensate them for their trouble.

Under this arrangement, from August 30, 1909, to the 31st March, 1913, uncurrent silver was so exported to the amount of \$6,115,636.85 at an expense of \$18,282.48. The exportation of such coin, with the recoinage of worn and mutilated silver (which has been going on steadily for a few years), has had a very marked effect on the state of the coinage throughout the country.

As before stated, the circulation of Dominion notes on the 31st March, 1912, amounted to \$112,101,885.65. The work connected with the issue and redemption of

Dominion notes is one of magnitude, and involves a great deal of care and responsibility. During the year ended March 31, 1913, new notes of the denominations of \$1 and \$2 were issued as follows:—

\$1	\$12,061,000 00
\$2	8,000,000 00

During the same period there were redeemed and destroyed soiled and worn circulation of the same denominations as follows:—

\$1	\$10,994,675 00
\$2	7,679,172 00

As a result of this constant issue of new notes and the steady redemption of those worn and soiled, there has been a gradual betterment in the condition of the circulation.

A feature of the business of the department which is of exceeding importance, and which has not hitherto been specially referred to, is that connected with the safe keeping of securities held on behalf of the Insurance Companies and on behalf of the Finance and other departments.

Of the former there were held on the 31st December, 1912, securities to the value of \$56,925,771 67, and of the latter, \$162,917,084 02. The amount of Dominion notes and Specie held at the same time was \$71,107,024 25, or a total of—

Insurance securities.....	\$ 56,925,771 67

Dominion notes and Specie.....	71,107,024 25
	<hr/>
	\$ 293,049,882 94

At the same time there were notes and specie in the hands of the various Assistant Receivers General to the amount of... \$ 105,060,864 12

Insurance and other securities held in London on behalf of the department of Finance.....	12,229,654 26

	117,290,518 38

Total of securities, Dominion notes and specie held by the Receiver General and on his behalf	\$ 410,340,401 32

All the above mentioned have been checked and verified.

Respectfully submitted,

T. C. BOVILLE,
Deputy Minister of Finance.
